

## PHILIPPINE ATHLETICS FEDERATION FIRST MF IN SOUTHEAST ASIA TO HOLD ONLINE WA CECS

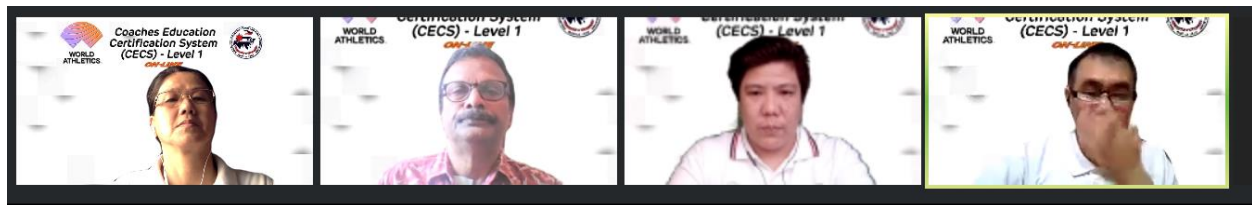

The Philippine Athletics Track and Field Association successfully conducted its first ever online edition of the World Athletics Coaches Education Certification System (CECS) Level 1 on December 1 to 14. It is cited as the first CECS Level 1 online version conducted by any WA member federation in the Southeast Asian region. Likewise, the Philippine Athletics federation comes as the second MF in the world to have used the distance learning format to organize the CECS Level 1.

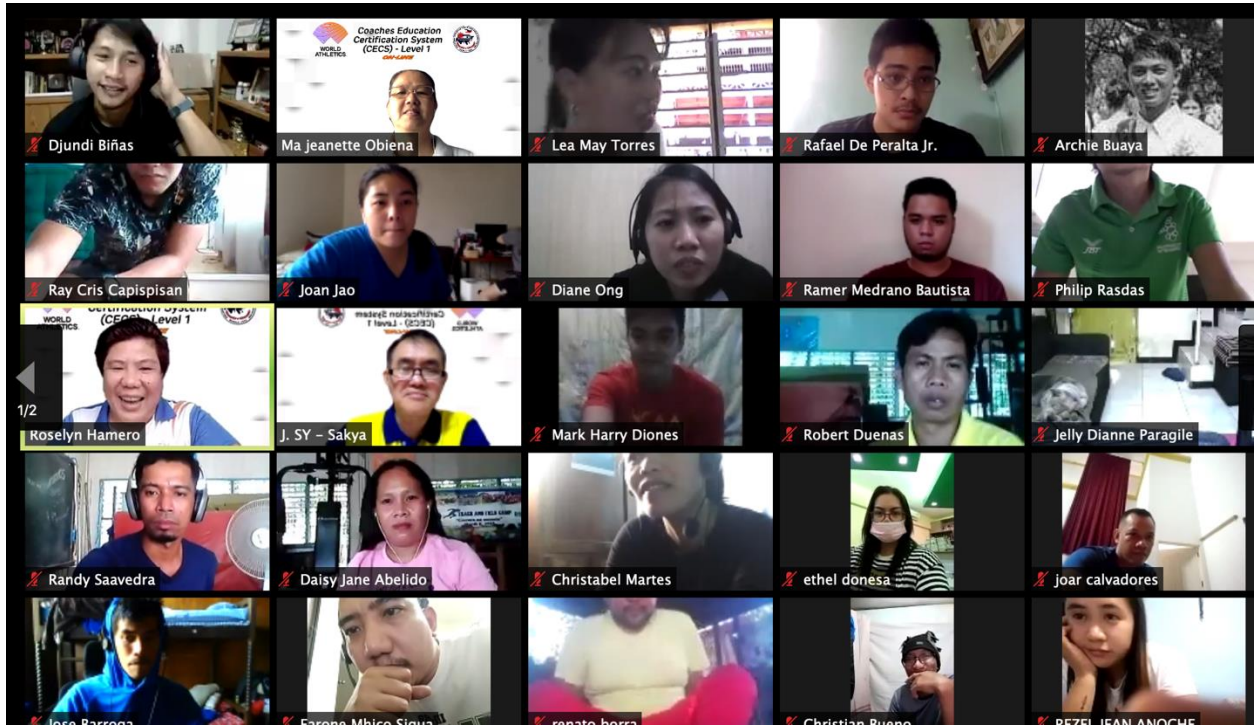

The CECS Level 1 Course by the Philippine federation was participated in by 24 rigidly selected local coaches from across the country. Many of the selected participants took part first in the lead up Sports Science-based coaching course conceptualized and implemented by the federation during the height of the pandemic lockdown in the country in four three-week batches from July to October. A good number of the CECS participants, likewise, were selected standouts in the Kids' Athletics Instructors Course conducted during the same period.

Malaysia's Anbarasu Subramaniam was the designated course director for this online CECS Level 1 course while three local WA-accredited Level 1 lecturers, headed by the federation's Ma Jeanette Obiena, collaborated in the conduct of the course.

The online course had a 96% passing rate with 23 of the 24 participants obtaining the Level 1 course certification and 12 earning eligibility for possible recommendation to proceed to Level 2. Joan Jao of the National Capital Region came out as the course topnotcher. She received a Seiko stopwatch from World Athletics as token for her achievement.
